Sir:

In response to the restriction requirement mailed June 24, 2004, Applicant hereby elects Group I, claims 1-26 and 44-49 for examination.

The election is made with traverse for the following reasons. It is respectfully submitted that the subject matter of claims 27-41, 42-43, and 50-53 is sufficiently related that a thorough search for the subject matter of any one group of claims would necessarily encompass a search for the subject matter of the remaining claims. Thus, it is respectfully submitted that the search and examination of the entire application could be performed without serious burden. M.P.E.P. § 803 clearly states that "[i]f the search and examination of the entire application can be made without serious burden, the examiner must examine it on its merits, even though it includes claims to distinct or independent inventions" (emphasis added). It is respectfully submitted that this policy should apply in the present application in order to avoid unnecessary delay and expense to applicants and duplicative examination by the Patent Office.

Client/Matter: 007874-0271790

A prompt and favorable action on the merits is requested.

Respectfully submitted,
